## Research on Computer/Robotics Related Career Sign-Up Sheet

With the Computer Technology and Robotics field filled with many different career opportunities, there are several options you can look into for your interested related career field. When signing up with your related career choice, ensure that someone else has not selected your choice, and if so select a secondary related career, and you will have the opportunity to see that persons researched career information when peers will be sharing with class.

#	Student Name	Career Selection	Computer/Robotics Related Careers
1			Aeronautic Engineering
2			Aircraft Engineer
3			Automation Engineer
4			Automation technician
5			Automotive Engineer
6			Bio-Engineers
7			Communications Engineer
8			Computer analyst
9			Computer and Information Research Scientist
10			Computer Engineer
11			Computer Hardware Engineer
12			Computer Network Architect
13			Computer Office Machine Repairers
14			Computer operator
15			Computer Operators
16			Computer repair technician
17			Computer scientist
18			Computer Software Engineer
19			Control Programmers and Operators
20			Control technician
21			Electrical Engineer
22			Electromechanical Engineer
23			Industrial Engineers
24			Instrumentation technician
25			Lead production support technician
			Mechanical Device Engineer
			Mechanical Engineer
			Mechatronics Engineer
			Microelectronics Engineer
			Renewable Energy Engineer
			Robotic process manager
			Robotacist
			Robotics Engineer
			Robotics Technician
			Robotics Technologist
			Satellite Engineer
			Security engineer
			Software analyst
			Software design
			Software Engineers
			Software quality analyst
			System Administrator
			Telecommunications Engineer
			Web developer
