

WESTERN TECHNICAL - COMMERCIAL SCHOOL

COURSE OUTLINE

COURSE TITLE:	Computer Engineering Technology: Robotics and Control System	CODE:	TEJ4M1
SUBJECT AREA:	Technology Education	RESOURCES:	www.mfranzen.ca
TEACHER NAME:	Mr. Franzen	DATE:	Nov 2020
PREREQUISITE:	Computer Technology	COURSE COST MATERIAL FEE:	None

COURSE DESCRIPTION:

This University/College preparation course extends students' understanding of computer systems and computer interfacing with external devices. Students will assemble computer systems by installing and configuring appropriate hardware and software, and will learn more about fundamental concepts of electronics, robotics, programming, and networks. Students will examine related environmental and societal issues, and will explore postsecondary pathways leading to careers in computer technology. Focus will support robotics and the Robo program here at Western.

COURSE DESTINATION: UNIVERSITY/COLLEGE IN AREAS OF COMPUTERS, PROGRAMING, ROBOTICS, ENGINEERING, DESIGN, NETWORKING, AND TRANSPORTATION

COURSE UNITS:

Unit	Description	Length	Evaluation Strategies
1	Safety & Careers - intro, organization, safety, journals, project ideas, and career pathways	1 Week	Research, poster, assignments, journal, practical
2	Computers & Components - electronics, operation, design, troubleshooting, and maintenance	1 Weeks	Journal presentation, assignments, practical, activities
3	Digital Logic & Circuits - binary, boolean, logic gates, counters/register cts., calculations, design, and build	2 Weeks	Journal, assignments, observation, practical activities
4	Networking & Programming - IP addressing, data routing protocols, services, languages, and concepts	2 Week	Journal, assignments, practical activities
5	Human Robot Interface & Control - custom project	2 Weeks	Journal, practical activities, demonstration, and presentation
6	Showcase & Web Portfolio - testing and present		Presentation, portfolio, test

OVERALL EXPECTATIONS: By the end of the course students will...

- A1. demonstrate an understanding of internal buses and storage devices, and of advances in computer technology;**
- A2. demonstrate an understanding of system optimization and of permissions, attributes, firmware, and communication standards used in computer systems;**
- A3. demonstrate an understanding of devices and electronic circuits in interfaces and control systems;**
- A4. demonstrate an understanding of network addressing and routing;**
- A5. demonstrate an understanding of computer logic circuits and the representation, manipulation, and transmission of data by computers.**
- B1. build computer systems and connection media to meet specific requirements, using appropriate procedures, tools, and equipment;**
- B2. maintain and troubleshoot a variety of computer hardware and software;**
- B3. design, build, test, and troubleshoot interfaces and other circuits that meet specific design requirements;**
- B4. design, build, configure, maintain, and troubleshoot networks, and set up various network services for users;**
- B5. demonstrate an understanding of programming concepts, and create programs that interact with external devices.**
- C1. analyse environmental issues related to the widespread use of computers and associated technologies, and apply strategies to reduce environmental harm from computer use;**
- C2. analyse societal issues related to the widespread use of computers and associated technologies.**

CLASSROOM EXPECTATIONS

- Come to class on time and be prepared and willing to actively participate in every lesson.
- Treat others with respect and courtesy.
- Ask the teacher for extra help if needed.
- Bring a 3-ring binder or equivalent with paper, pen, pencil, ruler, calculator, and minimum 2 GB flash memory stick.
- Distractions such as phones or MP3 players not to be used in class and internet use not to be abused.
- Take the initiative, be a team player, co-operative with peers, complete homework, and make your best effort.

ATTENDANCE MISSED TESTS AND EVALUATIONS

- Bring a note from parents the day after an absence to explain the absence.
- Be aware that a mark of zero will be assigned to students who miss presentations, tests or assignments without a valid explanation. It is the student's responsibility to make arrangements, ahead of time, for any evaluations that are missed. If a student misses an evaluation for an unforeseen reason such as illness or family emergency, the student must bring a note signed by a parent or guardian and be prepared to write/make-up the evaluation immediately upon return to school.

ACADEMIC INTEGRITY

- Plagiarism and/or copying will result in a mark of **zero** for everyone involved. Further action may be taken including suspension from school. Teachers will clearly define and discuss consequences of plagiarism with students at the beginning of each semester.

LATE ASSIGNMENTS

- All assignments must be handed in to the teacher on the due date. Late marks will be deducted from assignments handed in past the due date but prior to the cut off date. A mark of zero will be given to the student if the assignment is handed in after the cut-off date.

MISSED EXAMINATIONS

- Students are required to write all scheduled examinations. A student who misses any examination due to illness must present a medical note, stating that the doctor was aware that a medical reason prevented the student from writing the exam.

TEACHING/ASSESSMENT/EVALUATION STRATEGIES

Learning Activities: Hands-on-activities, assignments, journals, demonstrations, research, presentations, videos, illustrations, posters, tutorials, field trips, computers, controllers, practical projects, circuit design and building

Culminating Activities: None, based on term work only.

EVALUATION OF STUDENT ACHIEVEMENT

Student achievement is measured relative to curriculum expectations across four weighted Achievement Categories (Knowledge/Understanding, Thinking/Inquiry, Communication, and Application).

Term Work: 100% (Knowledge/Understanding, Thinking/Inquiry, Communication, Application)

Culminating Activities: 0% None, based on term work only.

Learning Skills: including: Responsibility, Organization, Independent Work, Collaboration, Initiative, and Self-Regulation are evaluated on each Report Card as: **E** (excellent); **G** (good); **S** (satisfactory); or **N** (needs improvement).
