#### COURSE OVERVIEW:

This course is in alignment with our whole school commitment to be inclusive, equitable, and non-discriminatory, by affirming student identities and experiences. We will continue to work towards eliminating systemic barriers and will intentionally include and celebrate content and voices from communities who are historically underrepresented and marginalized. We will use the curriculum as a tool to see the diversity in our community and work together to name and disrupt oppression when we see it.

#### Course Strands:

- A: Safety & Careers
- B: Design Process
- C: Material, Tools, & Process
- D: Project Design & Build

*\*\*Strand A is integrated through-out the course, while strands B-D are covered chronologically and thematically as units of study.*

#### Course Themes:

- Intro, expectations, routines, organization, and career pathways
- Sketching, prototyping, logo design, pattern making project box
- Working with materials, machines, tools, and process to build
- Research, design, build, test, and report custom project

*\*\*These themes are infused into the units of study.*
